KENNY FAB

Address: Owerri, Imo state, 460115 | Email: kennyfabu@gmail.com | Phone: (+234) 703 708 7632
Portfolio: https://kennyfab.netlify.app/ | LinkedIn: https://www.linkedin.com/in/kenny-fab-1042261a1/

Objective: A highly skilled and motivated Frontend Web Developer with a proven track record of creating visually appealing and user-friendly websites. I am passionate about the latest web technologies and strive to deliver high-quality, responsive web applications that enhance the user experience. Seeking an opportunity to contribute my expertise in frontend development and web design to a dynamic team.

Skills:

- Frontend Development: HTML5, CSS3, JavaScript, React.js, Angular, Vue.js
- Web Development: PHP, Node.js, Express.js, Wordpress
- Responsive Web Design: Bootstrap, CSS Grid, Flexbox
- Version Control: Git, GitHub
- Web Performance Optimization
- Cross-Browser Compatibility
- User Experience (UX) Design
- Web Accessibility (WCAG)
- Wireframing and Prototyping
- Agile Development Methodologies

Professional Experience:

Coding With Kids | Redmond, Washington | Instructor | Feb 2021 – Mar 2023.

- Educated students in problem-solving using Scratch and Web Development concepts.
- Utilized various teaching aids to improve learning outcomes and motivate students.
- Established strong rapport with students through discussions and academic guidance.

HD Skin Shop |Abuja, Nigeria | Web Developer | Apr 2021 - Mar 2022 (Remote)

- Led website development by converting mockups into functional web solutions using HTML, CSS, JavaScript, AJAX, and JSON.
- Conducted debugging and troubleshooting to ensure flawless website performance.
- Addressed technical issues and user problems efficiently.
- Collaborated with cross-functional teams to design, develop, and maintain responsive web applications.

- Improved website loading times and performance by optimizing code and leveraging browser caching techniques.
- Implemented frontend solutions to ensure compliance with web accessibility standards (WCAG) and cross-browser compatibility.
- Worked closely with backend developers to integrate frontend components with server-side logic using RESTful APIs.
- Conducted regular code reviews and provided constructive feedback to enhance code quality and maintain best practices.
- Implemented A/B tests to analyze user interactions and made data-driven decisions to improve user engagement.
- Contributed to the development and maintenance of the company's design system and component library.

BlueTag Technologies Limited | Enugu, Nigeria| Frontend Developer | May 2018 - Jul 2019
- Developed technical solutions to enhance user-facing assets.
- Collaborated with product managers, testers, and developers to drive process improvements.
- Developed and maintained interactive and user-friendly websites using HTML, CSS, and JavaScript.
- Integrated third-party APIs and services to extend website functionality and enhance user experience.
- Implemented content management systems (CMS) to empower clients to manage website content efficiently.
- Conducted website performance audits and implemented optimizations to achieve faster loading times.
- Collaborated with designers and project managers to define project requirements and deliverables.
- Assisted in troubleshooting and debugging website issues to ensure seamless user experience.
- Continuously updated technical knowledge by staying abreast of industry trends and emerging technologies.

Matilda Carol Primary School | Owerri, Nigeira| Computer Studies Teaching Assistant | Aug 2016 - Nov 2017
- Assisted in teaching Computer Studies to primary school pupils.
- Supported students through personalized and small-group assistance.

Education:
- Bachelor's Degree in Computer Science, Federal University of Technology Owerri | Imo State, 2023.
- High School Diploma | Lighthouse Startright High School | Imo State, July 2016.

Certifications:

- Front-End Web Development With React
  Coursera | Credential ID: K98BL9GCEX8Y |Credential Link: https://bit.ly/45gAL1J
  |Issued September 2022.
- HTML, CSS, And Javascript For Web Developers
  Coursera | Credential ID: JSWLCZGTFW8U|Credential Link: https://bit.ly/3OHDnyT
  |Issued July 2022.

Projects:

Project name: Evoke E-Health Solutions.

- **Description:** This project is dedicated to bringing healthcare into the digital era. Traditional hospitals encounter numerous challenges, particularly with patient wait times and accessibility. Our app addresses these issues, providing users with swift access to their preferred doctors right on their devices. This eliminates the need for hospital visits except in cases requiring surgery or other intensive care. Our platform is powered by cutting-edge technologies, including ReactJS, Python, and Django.
- **Role:** Frontend Developer.
- **Netlify Link:** https://e-health-frontend.netlify.app

Project name: Jupit.

- **Description:** Jupit is revolutionizing the way we handle digital assets. With its intuitive platform, users can conduct trades and transactions effortlessly. Designed for convenience, it ensures that digital assets are accessible anywhere, anytime.
- **Role:** Frontend Developer.
- **Netlify Link:** https://jupit-pwa.netlify.app

Volunteer Experience:

- Public Relations Officer at Media and Gender Enlightenment Initiative (MEGEIN) | 2022 – Current.
- Monitoring Officer at Global Media Monitoring Project (GMMP) | 2020.
- Talent Participant at Senpai Accelerator Program | 2020.
